

PASSAGE 2255

What if dedicating one minute a week to Women's Rights and therefore, inseparably, to Peace, put us on the path to a better world?

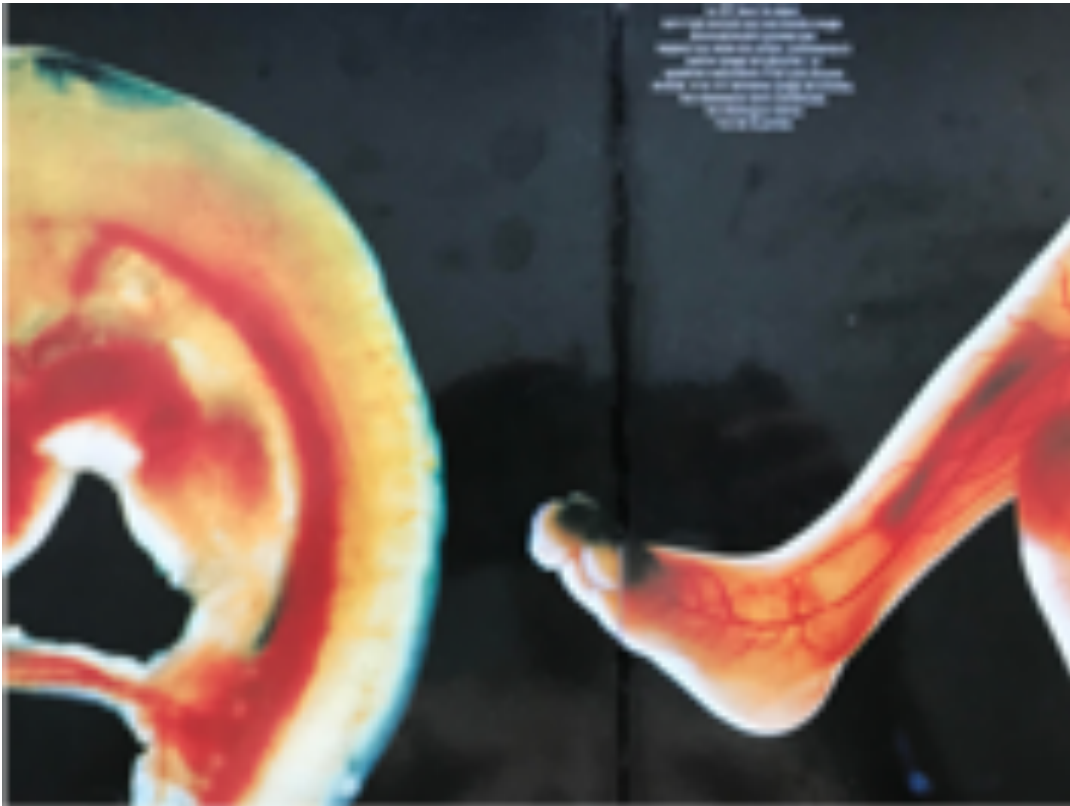

Don't think that moving towards a better world is impossible.

On Saturdays at 2:22 p.m. local time, unite for Peace.

From the ancient world to a new better world.

Vibration **22**, that of the **Heart**.

The **PASSAGE 2255** purpose, formerly «Round-and-Blue», is to put an end to the thousands of years old sub-Humanization of Women. It is also to prepare, patiently, with determination and in complete operational autonomy (smartphone) a **Worldwide Rendezvous of Emotional Synchronization** to salute, on March 8 2025, the **International Women's Day**

FIFTIETH ANNIVERSARY

It will be, including many genuinely new perspectives, an event of completely unprecedented Human **Beauty**, Human **Greatness**, Human **Nobility** and Human **Intelligence**, namely:

PLANETWIDE EMOTIONALLY SYNCHRONIZED FEMININE TELE-SOLIDARITY

It will be also an emotional and **spiritual endeavor** that the Human species as a whole has never experienced before. This is a question of **REPLACING**, in a well-affirmed diversity, in respect of one's roots and Human values, in the brilliance of one's identity distinction, this is a question of **REPLACING** the usual « *minute of silence* » with the synchronized singing of a **Hymn to Peace** in a unifying format, Hymn to Universal Peace through its melodic simplicity, its linguistic diversity, 50 languages available, and its free smartphone accessibility.

As a result, **MOMENTS2255** will finally put individualized telecommunications technology at the service of Women's Rights and, this is inseparable, also at the service of Peace. Because indeed, yes inseparably, Women's Rights and Peace are closely linked.

ONLY Women can save the world!

https://passage2255.com/?page_id=563

There are **ONLY** Women capable of leading us to Peace!

There are **ONLY** Women to put in place, in the concrete of daily life, a **better world** for generations to come.

There are **ONLY** Women capable of leaving as legacy, what a precious gift for the Human species, a **SAVING MOMENT** based on **Humanhood**.

ALWAYS 22 MINUTES PAST THE HOUR, LOCAL TIME!

BUT IS IT FEASIBLE?

Yes, it's completely feasible and, most importantly, in complete operational autonomy too! In fact, what you need to do in the beginning is very simple and beautifully universal. Plus, it doesn't cost anything and you don't have to ask anyone for permission.

LOVE AND LIBERTY ARE INSEPARABLE!

You start by clicking on « **Hymns** » to see if among the available languages there is yours. If this is the case, then you click on « **Trumpets** » and you learn the Hymn preferably by heart but not necessarily because, over the course of the weekly meetings that **PASSAGE 2255** proposes, **on Saturdays at 2:22 p.m., local time**, the entire text of your Hymn is permanently accessible to you by smartphone, with, as a **bonus**, the audio support of our **Trumpets of Hope**.

If you cannot find the Hymn in your language, then click on **Adaptation**. There you will find everything you need to be able to assert your leadership by offering **your** adaptation of the Hymn to Peace to all those who speak your language. Imagine! What a gift! What an opportunity to affirm **your** roots. What an opportunity to affirm your **leadership!**

That said, the Saturday afternoon Rendezvous are not enough to firmly anchor into your **HEART** some of the first elements of a new spirituality ready to find into you a very special place, a place which smells **HOPE**.

The emergence of the promising new perspective that **PASSAGE 2255** puts forward must be based on repeated benchmarks. Generally speaking, we can say that the more often you sing, the better. But there is « Sing » and « sing ». Singing the whole six phrases is one thing, a good thing. But alternatively, singing just one phrase or two is just as important, just as meaningful, just as engaging and enlightening.

You are at work, at school, on the bus, in the mountains, at the beach, on a plane, at a restaurant, at the bottom of a mine or on the road and you see 22 minutes go by. One phrase is enough. You can even just whisper it, no matter the tempo and no matter the note. The smartphone also doesn't matter. In fact, you can even just think about it, silently....with joy. This will be enough to allow you to feel a feeling of hope, pride too, even elevation, settling within you, in your emotional memory as well as in your identifying roots.

In this light, what matters, the thing has never to be underestimated, what matters is the **MOMENT**, the **MOMENT2255** that is. The precious inheritance to our children is a **MOMENT**, a **SIGNATURE MOMENT** relating exclusively to our Human specificity. To the extent that you freely declare yourself to be part of the « **FOR A BETTER WORLD** » perspective, which your song implies, we can speak of a landmark moment to which you cling. You hold on to it. It's at the point where you feel the opportunity and relevance to assert yourself as....

LEADER FOR HOPE AND PEACE

Yes I Can! Yes I want! Yes I Will! Yes I Know!

Remember that you not only have the right
to be unique but also the obligation. Eleanor Roosevelt
(1884 – 1962)

Roll back the impossible!
Say no to the sub-humanization of omen!
Push away fear!
Say no to war, to hatred, to corruption, to anonymity.

It is the construction of a **new spirituality** that is at issue in this matter of « **MOMENT2255** », a spirituality with an essentially **HUMAN** foundation. Not an **anonymizing**, lazy spirituality, not a spirituality with a « mythological » foundation, or even worse, with an « esoteric » foundation. That no!

What we are talking about here concerns real, reliable, concrete, physical acoustic vibrations, verifiable **at will**, daily **at will**, tangible to the eardrum and above all **shareable at will**, with family, in groups, in crowds, in multilingual choirs synchronized, across time zones.

WOMEN FROM EVERYWHERE, BE LEADERS!

THE FUTURE OF HUMANITY NEEDS YOU!
